5.	Skill Development Centre Project – Noida	An employment linked Skill training and certification program for youth, in trades relevant to Automotive & Non-Automotive sectors at a dedicated Skill Development & Vocational Education facility in Noida.
6.	Experiential Skill Development Project OJT Model	Experiential Skill Development Training Model is an employability linked programme with a 'Learn & Earn', model comprising both Classroom & Practical Sector Skill Councils (SSC) certified trainings to be conducted across various manufacturing locations. Students are supported with a reasonable monthly stipendiary benefit to support their living expenses during the training tenure.

		<ul style="list-style-type: none"> • Enable and mobilize youth to earn while learning and upgrade their skills with help of the existing workforce. • Upskilling the youth from economically weaker and needy sections. • To impart practical experience to the trainees for better exposure. • To provide a platform for the trainees to gain employable skills.
7.	Motherson Vann: Miyawaki Forestation Project	The project aims to establish a Miyawaki Micro Forest in the industrial area of Pathredi, Rajasthan, by planting 50,000 native trees using the Miyawaki afforestation method. The initiative seeks to promote environmental sustainability through enhanced carbon sequestration, improved air quality, increased biodiversity, groundwater recharge, and ecological restoration, while also contributing to the overall well-being of the surrounding communities.
8.	ISKCON: Bhaktivedanta University, Vrindavan	The objective of this project is to enable creation of educational infrastructure which shall be utilized to promote and develop traditional arts, specifically Indian ancient Vedic knowledge for creating Vedic leaders, spiritually enlightened entrepreneurs, Healers, Ayurveda Experts, teachers to restore alternate methods to solve the modern-day medical & social problems.
9.	Olympic Gold Quest – (OGQ)	The project aims to support and nurture India's emerging athletes in their pursuit of excellence on the global sporting stage, with the goal of contributing to India's Olympic medal aspirations. The initiative provides comprehensive support to talented sportspersons across disciplines such as Archery, Swimming, Badminton, Boxing, Wrestling, Athletics, Table Tennis, Weightlifting, and others. Through a holistic support approach, the project seeks to create an enabling environment that empowers athletes to realize their full potential and represent India with distinction at international sporting events, including the Olympic and Paralympic Games.
10.	Samarpan Foundation Nagar Aya	The project supports underprivileged children through remedial education initiatives designed to strengthen their academic foundation and facilitate integration into mainstream educational institutions. In addition to academic support, the program promotes participation in extracurricular activities that contribute to the overall development of children. Adopting a holistic approach, the project focuses on enhancing learning outcomes while also addressing the nutritional, social, and developmental needs of children. Through sustained educational support, nutrition assistance, and life-enrichment activities, the initiative aims to empower children to achieve their full potential and excel in their educational journey.

11.	Motherson Cares - For Smiles	Enabling Cleft Surgery's & Post Surgical Care for underprivileged communities with the following objective: <ul style="list-style-type: none"> • Creating Cleft Awareness in Community • Screening and Counselling of Patients • Conducting Cleft Surgeries • Providing Post operation care support to patients
12.	People for Animals	Aim towards welfare of animals.
13.	Motherson Cares: Community Development Project	The project aims to strengthen rural infrastructure and improve community safety through the installation of energy-efficient streetlights along an identified stretch of road connecting certain villages to the National Highway in Chennai. The intervention seeks to address the need of communities by closing infra gaps in lack of street lighting, which poses safety risks for pedestrians and motorists, particularly during nighttime. The project is expected to enhance road safety, livelihood opportunities, reduce the risk of accidents and petty crimes, and foster a greater sense of security among residents, especially women, children, and the elderly.
